	Markers		Belfast Zoo

Please remember to be respectful of our site and its wildlife, by ensuring no rubbish is left behind. Take care while you are on our trail. Please keep all dogs on their lead while walking and be a responsible dog owner and clean up after your dog.

Belfast City Council

INSTRUCTIONS

Can you help us find the answers to clues about the wildlife around Cave Hill?

Follow the trail (just under 4 miles) up and over McArts Fort, enjoying the amazing views of Belfast as you go.

Fun fact - although you will no longer find deer at Cave Hill, it was a deer park in the 1800's for the Marquis of Donegall

We need you and your friends to locate all 12 clues, answer the questions and solve the final answer.

Using the map, make your way around each of the locations. Each location can be found easily and has a question linked to it. Answer the question on your sheet.

Each shaded letter will be used to make up your final answer. Once you have solved all the clues, write the letters into the final answer grid.

Remember that you are responsible for the safety of yourself and others in the group while on the trail. Do not allow your children to go ahead and separate from the group.

Don't forget to respect the privacy and property of others. Before you begin, agree on an emergency rendezvous point should someone become separated.

1 Fox
What is a baby Fox called?

2 Frog
What type of feet help Frogs jump and swim?

3 Dragonfly
What do Dragonflies use their sharp teeth for?

4 Tadpole
What are Tadpoles born with to help them breathe underwater?
